Alberta

Regular Fortnightly Meeting of Council

The regular meeting of the local town council was held on Monday night, Mayor McLeod and Councillors Gillis, Montalbano, McVey, McDonald and Piccarilli being present. By Law No. 71, regulating speed of autos within the town, was introduced by Councillor Gillis and after the usual consideration was passed.

Another by-law was passed, empowering the assessor to assess improvements for municipal purposes.

Several applications for water connection and service were granted.

The following bills were ordered paid if o.k'd by the various committees:

A. J. Olson \$5.00, Blairmore Enterprise \$82.14, Union Bank (refund in connection with Build estate) \$13.58, Blairmore Furniture Store \$4.50, Blairmore Hardware Co. \$23.85, A. Morency \$39.30, South Alberta Land Registry office \$5.50, Alberta Government Telephone \$4.25, Dickinson \$7.50, Petty Cash \$24.30 J. E. Gillis \$83.33.

The question of re-organizing the fire brigade occupied the council's attention for some time and a committee was appointed to look into the prospects of organization and to report at next meeting.

We all admire the Blairmore senior hockey players for their "checking" qualities; but, by god O'Neil has got 'em all skinned. He has also discovered that that puck carries the same curve in the air as a baseball, but one has to move slightly more to one side to avoid it.

"The Pass" May Visit Lethbridge by Special Train

Arrangements are being made for a special train to carry hockey team and fans to Lethbridge on Wednesday afternoon next, and it is expected that that little prairie town will be literally swamped with Passites for this occasion. Save your wind and your money for Wednesday, for you'll need it all to support the league topnotchers.

Cliner Killed At Bellevue

John Seckella, a miner, of Passburg, was killed in Bellevue No. 1 mine on Tuesday evening. A jury was impanelled, but did not hear evidence, so the cause of death could not be ascertained, but it is believed that Seckella was a considerable distance from where he was supposed to work when the accident happened. The hearing concluded today, when blue prints, showing the position the man was employed in and the point where his body was found, were submitted.

Beebe Defeated By Majority of Thirty

The municipal bye-election on Tuesday resulted in the return of W. J. Bartlett, as councillor and the defeat of W. A. Beebe by a majority of 30. Great interest was taken in the election and two hundred and sixteen votes were polled. The main argument at issue was the extension of the railway platform, which would necessitate the blocking of Fifth Avenue, and the fight was put up by parties having property interests on or adjacent to that Avenue.

Local Contractor To Build Several Cottages

E. J. Pozzi, local building contractor, has decided to erect several brick cottages for rent purposes, and excavation work is now going on for the foundations. One will be located at the corner of Tenth Avenue, fronting on Victoria Street, and two others on Dearborn Street, while others are being contemplated. These will be modern cottages in every respect.

A Protest.

Coleman, Alberta
January 26th, 1921
Editor Blairmore Enterprise

Dear Sir:

Kindly notify the patrons of the recent Blairmore-Coleman league game that the Coleman hockey team has virtually decided to emulate the sportsmanlike attitude of the Lethbridge Vets in the recent Lethbridge-Coleman game at Lethbridge. Coleman won to the tune of 6 to 4 in protesting the game, and protest the Blairmore-Coleman game of January the 26th, which Blairmore won 4-0, on the following contentious points:

1. Coleman lost. Score 4-0.
2. Harbour displayed P. C. League class, to the disadvantage of Coleman, and to the material assistance of Blairmore, in running up the score.
3. Johnson, goal tender for Coleman, left today to join the Eskimos at Edmonton, in preference to facing another bombardment from the Blairmore sextette.
4. Billy Turner, blooming out as a star and presenting an impenetrable defence, which was, if not totally unexpected, we at least consider uncalled for.

E. J. The goal was too low and the posts set too close together to gather in any of the shots that "Legs" Jewell projected in the general direction of the Blairmore net.

F. A. Blairmore "hen," roosting on the fence referring in a loud tone of cock to our genial Billy as "Dirty Hogan," caused that gentleman to forget that he was playing hockey and led him to imagine that he was at home doing chores.

Failure on the part of the spectators to present a bouquet to Gates, with a card inscribed "Gates A-Jar," He needed one.

May--Wiswell

The marriage took place at Lethbridge on Thursday last of Alexander Seymour May, of Blairmore, to Miss Mildred Irena Wiswell, of Warner. The young couple have taken up residence on State Street, Blairmore.

Large bills were turned out by The Enterprise this week for Messrs. K. A. Sand, Bellevue; W. L. Oulmette, Coleman; J. Joseph, Hillcrest; and R. Trano, Blairmore, announcing special bargains in their various lines. We invite you to patronize the liberal advertiser at all times.

9. This clause is summed up generally. The excellent condition of the ice and perfect lighting arrangements, together with the absolutely fair and impartial judgment of the referee, A. J. Kelly, being something so entirely unexpected after our recent experience in Lethbridge, so flabbergasted our team that they were anywhere but in the game; and we feel, in bringing up our protest that clause 9 should prove one of our strongest points, in fact, second in importance only to clause 1.

Signed:
A. COLEMAN BARRHEAD

The Sealing Industry

The seal pack in the Northern Pacific
waters is considered to be the most
valuable herd of wild animals in the
world, its value being placed at \$75,000-
\$100,000 and yearly increasing.

After a conference in 1911 between the
United States, Russia, Japan and Can-
ada, all of whom are interested in these
waters, a closed season was established
for fifteen years and pelagic sealing for-
bidden. According to the treaty signed
at the same time, Canada receives fifteen

per cent. of the catch of these waters.

The Dominion's credit has been al-
lowed to accumulate, and when a set-
tlement is made, which will probably be
done at the end of the present year, it is
expected that Canada will receive some-
thing like \$600,000 as her share of the
catch since the opening of the season.

With the beneficial effect the protection
of the herd has had and is still ex-
periencing, it is predicted that in a few
years Canada's revenue from this source
will be in the neighborhood of \$1,000,000
per year. Agricultural and Industrial

W. J. BARRETT, Proprietor.

Blairmore, Alta., Thurs. Jan. 27, 1921

False reports continue to appear in the daily papers, and during the week two false statements affecting Pass citizens have found their way into the columns of the Lethbridge Herald, one to the effect that "the proprietor of the Cosmopolitan Hotel had been convicted of a breach of the liquor act," and the other purporting to "Pleasariello, known throughout The Pass as the King of the Bootleggers," was arrested by the A. P. P. and squashed on a bootlegging charge." The proprietor of the Cosmopolitan hotel has never been charged with an offence against the liquor act, and consequently has never been convicted. The hotel is not connected with the bar, which has only a front and back entrance, entirely apart from the hotel. The Herald stated, nor had a bootlegging charge been laid against him at the time mentioned. Such charges are probably more serious than the city papers may imagine, and are knocks against the district from which the city papers expect a share of support.

Coleman Goes Under in Fast Game at Blairmore

One of the fastest games of hockey ever witnessed in Blairmore and probably Southern Alberta was seen here on Tuesday night, when Coleman, the Crow Hockey League leader, went down to defeat to the Blairmore team to the tune of four to nil. The game was witnessed by over fourteen hundred people, the largest crowd ever seen at one game of any description in Blairmore, and the gate receipts touched the \$300.00 mark.

Although the rink management had erected a grand stand along one side of the rink and extended standing room on another there was not sufficient accommodation for the vast crowd of hockey enthusiasts who crowded to the gates and so as not to disappoint the overflow the management had boards taken from the blank side of the rink to enable them to get a squint.

The game was fast and furious from the time Referee Kelly placed the puck between the sticks of the opposing players on centre and continued so throughout the length of the game. Blairmore were victors in the first period by a score of two to nil. Both goals were well earned. Captain Barbour, of the Blairmore team, shot the puck in first after a great run from centre ice. In this run he certainly had the Coleman men outskated, as none could catch him and before they could get a line on him he had scored the goal that sent the Blairmore rosters wild with excitement and enthusiasm and put a kink in the horn of Coleman's chief rooster.

Walter Scott scored the second in a scrimmage which kept Johnson, of Coleman, jumping in his net. Time blew the score two to nil in favor of the home team.

In the second period Coleman came back strong and pressed Rhynas, the Blairmore goal tender, pretty hard, but Rhynas was in his usual good form and made several good saves. Cosgrove, of Coleman did some good work in the centre and several trips into the Blairmore defence, only to find that when up against Barbour and Turner he had no support to help him get the puck through. Jewell, right wing, was sometimes at hand, and when he was these two stars of the Coleman team made the Blairmore defence work hard to defend their goal. Turner secured the puck at centre ice in

ADVERTISE

his period and with one of the greatest dashes seen on this ice placed the puck in the Coleman net making the score three to nil in Blairmore's favor at the close of the second period.

"The ice was cleaned off during the lull before the third and last period and when time was called excitement reigned supreme. The spectators evidently had the schedule of the standing of the teams in the League before their minds eye and knew what depended on this last twenty minutes struggle.

Coleman got away to the Blairmore goal and made a great effort to beat Rhynas, and possibly if they had used a little better judgment when shooting for the goal they might have evened up the score, but what came straight at the net was safe with Rhynas. In a scrimmage before the Coleman goal Johnson laid on the puck and although Blairmore poked at it fiercely, he managed to give them all the slip and Coleman got away through Cosgrove to the Blairmore goal, only to find Rhynas again on the spot where the puck should have entered the net. Tony Vejprava was successful in scoring the 4th goal from a pass by Graham and the game ended amid geyelling from the rosters, Blairmore being the winners by four to nil.

There was no occasion through out the game for the referee to fence any of the players although at times the play looked to be rough and Turner, Goddard and Vejprava, of the Blairmore team were put out of play by hard knocks but only for very short periods.

This game puts Blairmore at the head of the League and incidentally puts greater interest into the game for the other teams in League.

Blairmore will train hard for their return game with Lethbridge as they acknowledge this team to be their greatest difficulty in their struggle for the pennant. Fans will have the privilege of witnessing the best game of hockey ever played in Southern Alberta.

The Blairmore line up was as follows: Rhynas, goal; Barbour and Turner, defence; Graham, centre; Goddard, right wing; Vejprava, left wing; Elwin and Scott, subs.

Coleman lined up as follows: Johnson, goal; Grinnack and Hogan, defence; Cosgrove, centre; Jewell, right wing, and Gates, left wing. For some reason Coleman played no subs.

A Mail Order Deal

The other day in Oklahoma, a man went into a hardware store to buy a saw. He found the kind he wanted and asked the price. It was \$1.65 the dealer said.

"Good gracious," replied the shopper, "I can buy that same saw exactly from Sears-Roebuck, catalogue house, for \$1.35."

"That's less than I paid for it," replied the dealer, "but I will most certainly lose competition, so I'll make you a special price."

"All right," said the customer, you send it to my house and charge it to my account."

"Not on your life," replied the dealer,

Admission

25c. and 50c.

"No charge account on this; the mail store in the first place." - Gulf Coast order house don't trust you. I am simply lumberman, Houston Texas, January 1, over the cash."

The customer complied.

"Now 2 cents more for the postage, and five cents for the money order," said the dealer.

"What?"

"Certainly," you have to send a letter and a money order to a mail order house, you know."

The customer, inwardly raving, handed over the money.

"Now, 25 cents for express charges," said the dealer, still holding out his hand.

"Well, I'll be--," said the customer. But he paid it, saying, "Now, hand me that saw and I'll take it home myself and be rid of this fodder."

"Hand it to you? Where do you think you are? You're in Oklahoma and I'm in Chicago. You'll have to wait two weeks for that saw."

Whereupon the dealer hung the saw upon a peg and put the money in the cash drawer.

"That makes \$1.67," he said. It has cost you 2 cents more and has taken two weeks longer to get than if you had bought it from your local hardware

GUESS !

“My Canada” “My Canada”
\$300 Cash Reward to
any Person who is
Nearest Right in 3 Guesses.

FRANKLY, we want to draw your attention to the enormous imports of United States goods into Canada. We want you to realize what it all means to every Canadian—to Labor especially. So we will pay in Cash \$300.00 First Prize, \$100.00 Second Prize, \$50.00 Third Prize—and the next eleven prizes of \$5.00 each to any person who makes and sends in to us the nearest guess to the amount of money in goods that will be imported into Canada from the United States for FEBRUARY, 1921, as will be reported in

**Canada's Trade Returns for
February, 1921**

The figures for February, 1920, were \$40,701,348.00; for February, 1919, they were \$52,255,909.00; for February, 1918, they were \$41,185,814.00; for February, 1917, they were \$63,078,027.00, and for February, 1924 (before the war) they were only \$23,288,731.00. You see where we are and what we are coming to in Canada. What will the figures be for February, 1921? Are you a good guesser? If so, win one of the prizes.

HOW TO WIN

Get two of your neighbors to give you only ONE DOLLAR each for a year's trial subscription to “MY CANADA” (regular price Two Dollars Per year), and send in the money with your three guesses. Each subscriber is also allowed three guesses! Will you risk an hour of your time to win THREE HUNDRED DOLLARS? Come! “GO, GET IT ! !”

“MY CANADA” will be published monthly. It lives to help you and Canada to better things. It goes without saying that the more readers we have the better this National periodical will be. This is not only true commercially, but we feel that every additional reader means so much added moral support.

Your guess must be in by FEBRUARY 28th, 1921. As the old adage would say, obey that impulse, obey it now! Help us by this means to reinforce our convictions as to the future and the present in Canada, and of leading the way to better things for you, and yours, and us. Address your guess and send subscription to the publishers, “MY CANADA,” Suite 214-5 Blair Bldg., Toronto.

A Winter's Trapping

MY FIRST SILVER FOX

By O-GE-MA-ES (Little Clerk).

(Copyrighted)

Wintering at Sturgeon River, a small outpost of the Hudson's Bay Co. in the Cumberland district, in 1778, time often hung heavy on my hands when my two men were away on trips to the Indian camps, there being no resident Indians, close at hand. So after overhauling five nets (which was a daily task all winter), the proceeds of which constituted our principle food both for men and dogs, there was literally nothing to do, and this was killing to one of my active temperaments.

On the men's return I tackled Francois for some instructions as to setting of traps, for up to this time, though I had been six years in the service, I had been kept so busy that the opportunity for trapping never offered, consequently I was quite green about the matter. Francois was very good and patient with his pupil, telling me to bait my traps with green spruce brush, then hang them out in the front, and in setting a fox trap to keep along a beaten track if possible, reach forward and make a hole in the snow, place some down (off bush-rubbers preferably) in this, then carefully place the trap in, with a very thin piece of paper to fit inside the jaws, fasten the chain firmly to a post of green willow five or six feet long, conceal this under the snow, then with a stick smooth all over the surface, scatter broken fish, like bread crumbs, for several feet round and then, if it will only snow a little, your job is complete. I followed instructions very carefully and noted some fresh fox tracks in the vicinity, these being particularly small and well shaped, so with a prayer for good luck I left two traps, one being quite close to our fishing place. The stick to which the trap chain is fastened must be quite loose so that Mr. Fox can drag it away. If you fasten this solidly they will generally foot themselves, and a foot in the trap is poor fishing.

I followed instructions very carefully and luckily it snowed a little after I had set my traps. Then came my turn to go on a trip to the Indian camps, nearest of which was some thirty miles away, so it was some seven or eight days before I had an opportunity of visiting them.

Our winter quarters were two small log buildings, one opening into the other with big open mud chimneys in each, for this was before the days of cooking stoves. My room was the inner cabin. Passing through the men's quarters with my capot and leggings on I was off for my first visit to the traps, remarking, on passing, "Look out for a silver fox on my return." This left them laughing; for fox, whiskey, jack or weasels are generally the first catches of a green trapper. On reaching my first set, both trap and stick had gone and after circling the spot a few times, each round a little further away, I found faint traces of where something had dragged and then I followed like a hound on a keen scent. The banks of the river were rather steep in places and several times where Mr. Fox had tried to get up into the woods he fell back on it, but at last came a more sloping bank, and the track was fresher going up and over. Not ten yards away was a beautiful animal, black as a coal, not quite though, for there was a patch of silver hairs on his rump. I stared at it with amazement, and finally realized that it was a genuine silver fox and no other. In the meantime it was hissing and spitting at me like a cat. I did not want to club it for fear of injuring the skin (fox skins being very tender). After thinking a minute I took off my capot, threw it on the poor fox and smothered him to death,

this without any blood to mar the skin. I could hardly credit my good fortune, my first attempt at trapping of any kind, and here was a prize that many old trappers had never caught. Getting near the post I concealed the fox as well as possible under my coat, and walking in the cabin threw the beautiful animal down on the floor, remarking, "Did I not tell you that I was going to bring a silver fox back?" Speechless with amazement, the two French half-breeds and their young wives clasped their hands on their mouths (a native habit when astonished) and ejaculated, "Wah, Wah!" The news went far and wide that Ogemaes had killed a silver fox. This was rather to my disgust as I was anxious to send the skin home to some relatives, but alas, on my next trip to headquarters the first question put by the Chief Factor was: "Where is the silver fox?" and willy nilly I had to surrender same at the going trap price of four skins, which worked out at about \$24.00, this being part and parcel of every clerk and servant's contract with the Hudson's Bay Company, viz.: That all furs caught by them be handed over at post prices to the company.

With such good luck in starting trapping I was now on fire for more of it, and so enthused an old Indian at one of the mountain camps that he gave me a small bladder of scent, so strong that if the stopper was taken out in the house, one could not stay in the room. This was a very special secret. Also the old chap instructed me for hours on the fur animals' habits and the methods of setting particular traps, all of which I felt very grateful for and rewarded him accordingly.

I had now purchased thirteen steel traps, all we had in store, and noting some marten tracks on the mountain trail, decided to try my luck. These are simply caught by building a little enclosure, setting the trap at the door, with bait inside, and a little stick dipped in my famous scent near the entrance. I was fortunate in getting five, when a wolferine got on my trail and deliberately tore several trapped martens to pieces. I covered vengeance and took a big No. 4 double spring beaver trap on my next trip and fastened the chain to a heavy long pole. This was placed over a stout branch, and I then placed the end of the pole in a notch in a small tree so that a tug on the chain would release it, and I hoped Mr. Wolferine would swing.

Some time elapsed before I was able to look at these traps, but off I went at last and from some distance from the wolferine trap I could see something swinging. There was the Wolferine all right, caught by one jaw, which by the look of it was frozen, swinging in a circle with his hind feet only occasionally touching the ground, and everything within reach chewed off. "His was the chain would swing with hair bristling on his back and ears flat to his head. He was one of the largest size, evidently a full grown male. Only being armed with a trapper's small tomahawk, I thought it advisable to cut a good long club, and as he swung round growling wickedly, I made a crack at him. He dodged it with his head, the stick struck his frozen paw knocking him loose from the trap, and for a while things were quite mixed. I finally clubbed him to death, but before my blue stoned leggings in ribbons with his claws, I being fortunate to avoid his teeth. Home I went, very proud to have caught the robber, but his pelt at trade prices was only worth some two or three skins.

(To be continued.)

Juvenile Crime on Increase

In 1919 Some 3,867 Children Under 16 Years Convicted of Offenses.

Ottawa.—During the past twenty years in Canada boy criminals have increased by almost 300 per cent. This is shown in an analysis of the criminal statistics issued by the bureau of statistics.

The analysis does not go beyond the end of 1919, but they show that during the three years, 1917-19, more than 20 per cent of the indictable crimes were committed by children under 16 years of age. Looking back the records show that for the period 1894-95, the average was 13.64 per cent and in 1899 it was 16.38 per cent. In 1919, there were 3,867 children under 16 years of age convicted for

indictable offenses, of their number 3,728 were boys. There were 631 boys convicted for burglary, house and shopbreaking.

Would Discuss Peace

Turks Ready to Accept Mediation of Some Neutral Power.

Constantinople.—The Turkish Nationalists are willing to negotiate for a settlement with the Allies, according to an Ankara-despatch, quoting Hamid Moussoury, the Turkish minister for foreign affairs in the Cabinet of Mustafa Kemal Pasha.

"We are ready to accept the good offices of some neutral power to mediate with the Allies," the commissary is quoted as declaring. "The negotiations can begin as soon as an offer is made."

Chairman of Wheat Board

James Stewart, of Winnipeg, recently appointed, together with E. W. Riddell, to make a report on the practicability of a Saskatchewan Wheat Pool.

Praise For Durum Wheat

Kernel Makes Darker Bread But Popularity Will Result From Education.

Winnipeg.—The production of durum wheat, because of its rust resisting qualities and high yield, in the northwestern states, was advocated here by Dr. L. H. Walster, of North Dakota, in an address on the durum wheat problem in the United States, at the convention of Manitoba agricultural societies or farm congress.

"Canadians must make their own decision on the use of durum varieties," Dr. Walster declared. "For Dakota and Minnesota I would favor a hard red spring wheat if one could be found to resist rust. Under present conditions durum is the best what we can raise and it is already finding a big market in the countries of Southern Europe," said Dr. Walster.

"American and English people object to the dark bread made from durum flour," he asserted, "but if the rust menace continues we may have to accept the durum varieties for general production."

Dr. Walster stated that objections to durum are largely those of prejudice and custom, and only require education to overcome them.

Would Reduce Naval Programme

Borah's Resolution on Armament Faring Approved by Senate.

Washington.—Senator Borah's resolution proposing negotiations for reduction of naval building by the United States, Great Britain and Japan was reported upon favorably by the Senate Foreign Relations Committee.

Some changes were made by the committee in the Borah resolution. One was the inclusion of provisions that any agreements between the United States, Great Britain and Japan for naval building reductions should be promulgated formally by treaty. Confinement of the negotiations to three principal naval powers, as originally proposed by Senator Borah, was approved.

To Help Farmers

Banks to Advance Half Million to Farmers in Need.

Winnipeg.—The Tribune carries the following from its Ottawa correspondent:

"About \$500,000 will be advanced by the banks at the instance of the Government to needy farmers of the west who lost their crops. This will enable them to buy seed grain. The loans are to be made only to home-steaders actually farming their land, and will be on the security of notes. In the event of default the Government will make good."

Experimental Stations.

Winnipeg.—Experimental stations for the prairie where eradication of smut in wheat can be studied, were advocated by President John Bracke, of the Manitoba Agricultural College, before the delegates to the Canadian Seed Growers' Association in convention here.

Increased Value of Seed Wheat.

Fargo, N.D.—Canadian farmers have increased the value of their seed wheat four bushels an acre by proper organization for improving the seed, Professor T. J. Harrison, of the Manitoba Agricultural College, said in addressing a session of the tri-state grain growers' convention.

W. M. U. 132

Expect Brisk Building Period

Greatest Activity in Construction in History of Country is Predicted.

Winnipeg.—A proposal that the Federal Government should be urged to float a \$250,000 housing loan by the sale of Government bonds was considered at the convention of the Association of Canadian Building and Construction Industries here.

Another of many important matters receiving attention is the proposed establishment of an apprenticeship system in the building trades throughout the Dominion. Both questions were favorably reported upon by the National joint conference board, formed as a result of discussions with representatives of labor unions and committees were appointed to bring in definite resolutions regarding them.

W. H. Carter, ex-president of the Board of Trade, said one of the most vital problems before the country was the high cost of building. He believed the cost of building materials would have to be reduced along the lines of other commodities before there was a very large amount of building done.

President J. P. Anglin stated that comparatively little construction work had been done in Canada since the war started and expressed his belief that the greatest building period in the history of the country was about to be entered upon. Whether it was realized or not, the very welfare of the country depended more on the revival of building activity than on any other single factor.

Would Equalize Railway Rates

British Columbia to Co-operate With Prairie for Revision of Discriminatory Tariffs.

Vancouver.—The Government of British Columbia, through the Attorney-General's Department, will wage the fight before the Dominion Board of Railway Commissioners for the equalization of freight rates between Eastern and Western Canada, according to a letter received by the Vancouver Board of Trade from Premier Oliver.

There is a probability that not only British Columbia, but also all of the prairie provinces will be behind the application when it comes before the Railway Commission. The Vancouver Board of Trade took the matter up with the Manitoba, Saskatchewan and Alberta boards and assurances have been received from some of them that they will lend their assistance in bringing about the desired aim.

Abandon Reparation Plan

Allies Substitute Annual Payments For Scheme of Fixing Total Amount.

Paris.—Abandonment of the plan of fixing the total amount of reparation to be paid by Germany and the substitution of annual payments has been agreed upon by French, British and German delegates, says a Berlin despatch to the Journal. The newspaper says that for a period of five years the annual payments will be made in kind under the terms of the arrangements made.

New French Briand Encouraged.

Paris.—Premier Briand received a number of telegrams from leading statesmen since being named head of the new French Government. Among them were messages from Prime Minister Lloyd George of England, and Premiers Giolitti of Italy, and Waut of Belgium, all of whom expressed their warm sympathy and the hope that the bonds uniting the allies might be drawn closer.

Irish Settlement Hopeless.

Cork.—A profoundly pessimistic view of the situation in Ireland is taken by Sir Basil Blackett, of Cork, in his annual report. Surveying the situation from every angle, he said he saw no prospect of peace. A settlement was hopeless, in the opinion of the Bishop, so long as the Government interpreted every move of the Irish leaders towards peace as a sign of weakness.

Wireless Record Made.

Hartford, Conn.—A new civilian wireless record was established when Hiram Perry Maxim sent a message from his station here to Los Angeles, Cal., and received a reply six and one-half minutes later. The message was relayed by stations at Chicago and Roswell, N. M.

Want Better News Facilities.

London.—A large deputation representing the Empire Press visited on the postmaster-General and urged the desirability of improved facilities for cable and telegraphic news.

Alberta United Farmers Endorse Plan For Wheat Pool Marketing

Quebec Liquor Regulations

Stated That New Legislation Will Provide For Sale of Liquor Without Prescription.

Montreal.—Quebec dispatches state that the new liquor legislation the Provincial Government will introduce will provide for:

1. Every kind of spirituous liquor and wine being sold by retail without prescription in Quebec.
2. The appointment of a commission consisting of three or five members who will be paid at least \$10,000 per annum each.
3. Through this commission, the Government will control the sale of liquor, wholesale and retail, and get all the profits from retail sales.
4. Present wholesalers will be affected but they will be permitted to sell to retail agents in Quebec only. The retail agents will be directly appointed by the commission. The out-of-province business of retailers will not be affected.
5. The retailers will be paid salaries of \$4,000 per annum. There will be one hundred of them.
6. All liquor sold by Government stores will bear a Government stamp and plainly state the price at which it must be sold and there will likely be one standard price fixed which will include the revenue stamp to be placed on each bottle when sold to the customer and will be reasonably lower than present prices.

Government analysts will be appointed to test the quality of all liquor bought from the agents before it is put into the Government stores, and inspectors will insure that in the bottling of the liquor from the casks in which it comes to the country, nothing is added, except what is necessary to bring the spirit down to the required strength under proof.

Hotels, restaurants and grocers will be licensed only for the sale of beer, with the exception that hotels, with more than fifty rooms will be granted a special license for the sale of wine for their guests registered in the hotel.

The manufacture of temperance beer will be totally prohibited and all night clubs will be abolished.

To Proceed With Construction Work

Canadian National Branch Lines Are To Be Completed.

Ottawa.—The Minister of Railways has announced that in the western provinces of Saskatchewan, Alberta and British Columbia, construction work will be proceeded with on all the branch lines of the C.N.R. started last year, but outside of this there will be no new undertakings. No more branch lines will be bought.

The Grand Trunk arbitration comes February 1 and is expected to finish by April. As soon as the award is made the Canadian National Board of Directors will be reconstructed completely.

New National Party Leader Makes Plea for Spirit of Cohesion

Hon. T. A. Crerar Gives His Views On Government-Owned Roads.

Edmonton.—Revaluation of the Government-owned railway lines to put them on a proper basis and the use of Government power as far as is legitimate to provide business for the nationally-owned systems are the remedies suggested for the relief of the deficit facing these lines, by Hon. T. A. Crerar, leader of the New National Party, the chief speaker before the annual convention of the United Farmers of Alberta here. He suggested that the Government should settle incoming immigrants as far as possible along these lines.

He reiterated his advocacy of public ownership of railways and made a plea for co-operation and the retention of integrity in the farmer movement.

Norman Lambert, secretary of the Canadian Council of Agriculture, warned the convention against possible attempts to stir up dissensions in the ranks and told them that the organization he represents is doing a great work in keeping unity among the various farmer organizations in the Dominion.

Hon. T. A. Crerar said the farmer

Edmonton.—Endorsement of the wheat pool proposition and a mandate to their executive officers to go ahead with the work of preparing the way to the final establishment of the plan, in co-operation with the other provincial farmers' organizations, was contained in a resolution passed by the United Farmers of Alberta at their annual convention here. Only five out of 1,461 registered delegates voted against.

J. R. Murray, assistant general manager of the United Grain Growers, explained the draft agreement and impressed on the convention the need for co-operation.

C. P. Burnell, vice-president of the United Farmers of Manitoba, brought greetings from the Manitoba association and appealed for sympathy toward the non-English-speaking citizens, and asked that the farmers' organizations co-operate to make better citizens of these people. The farmers' movement, he continued, is essentially practical and should take an interest in changing the environments of the farm home.

The committee appointed to draft a resolution on the proposed wheat pool, reported. The resolution expressed dissatisfaction of the U.F.A. with the present method of marketing wheat; confidence in the ability of the farmer organizations to carry out the wheat pool proposal; appreciation of the efforts of the Canadian Council of Agriculture, and urged distribution of information among the grain growers.

The recommendation is: "That our representatives, in connection with the representatives of the other provincial organizations affiliated through the Canadian Council of Agriculture, should press forward with the work of preparing the way to the final establishment of a co-operative scheme for the marketing of the wheat crop of the Dominion."

Possibilities of Western Fruit

Believes That Fruit Can Be Successfully Grown on Prairies.

Winnipeg.—Fruit growing in Manitoba has great possibilities it was declared by H. H. Hayer, superintendent of the demonstration farm at Killarney, addressing the convention of the Manitoba Horticultural and Forestry Association. He urged that the Federal and Provincial Governments demonstrate on a prairie bog farm the possibilities of cranberry growing with a view to keeping at home the thousands of dollars sent to Cape Cod for cranberries every year.

Copenhagen.—An attempt was made recently to assassinate Nikolai Lenin, Bolshevik premier of Russia, it is said, according to the newspaper Ivestia of Moscow. Lenin was proceeding to Moscow to attend the eighth Soviet congress when a bomb was thrown at his machine, killing eight guardsmen and three civilians and wounding 20 others. The man who threw the bomb escaped arrest, it is said.

Cowley Happenings

H. S. Tristram, of Cascade, B.C., is in town on business.

John Kamnis, M.L.A., is in a Calgary visit for this week.

D. R. McVoy spent several days in Calgary, regarding home Saturday.

C. Elton and W. Parry are making another shipment of cattle to Spokane.

Mr. and Mrs. M. A. Murphy are receiving congratulations on the arrival of a new daughter.

About twenty of the local boys went to Blairmore on Tuesday to see the hockey game between that town and Coleman.

The annual meeting of the Women's Institute will be held on Saturday. The principal business will be the election of new officers.

Esie Bennett is stopping in town with Mr. and Mrs. George Ritson, that she may be enabled to attend school here during the winter months.

The Farmers' dance, held last Friday night, was a great success, despite the rather unfavorable weather. A feature of the occasion was the scarcity of modern dances on the programme, and resulted in reminding many of the old times present that they once danced, and many were on the floor who had not danced for years. The Pincher Creek orchestra was in attendance.

Have The Courage For 1921

To start right and keep right.
To turn from evil and cling to that which is good.
To prefer comfort and propriety to fashion in all things.
To wear your old clothes until you can pay for new ones.
To discharge a debt while you have the money in your pocket.
To obey your conscience at the risk of being ridiculed by men.
To own you are poor and thus dismiss poverty of its sharpest sting.
To wear thick, low heeled boots in winter, and insist upon your wife and daughter doing the same.
To do without that which you do not need, however much your eyes may covet it.
To speak to a friend in a "sooty" coat, even though you are in company with a rich one, and richly attired.
To save your beauty and quit all dances at reasonable hours.
To be on time at social or business gatherings.
To say nothing if you cannot say something good of a former friend.
To agree or disagree with your friends and acquaintances.
To speak your mind, when it is necessary you should do so, and to hold your tongue when it is prudent that you do so.
To stand by your convictions, be both courteous and firm, making no compromise with evil, not turning in to the forbidden paths, chase the
